

EXCELLENCE, RELIABILITY, DEDICATION

ROCKFORD MIDLAND CORPORATION

ROCKFORD

Established in 1973, Rockford Packaging Systems, Inc. has been at the forefront in the evolution of design and packaging machinery for the automatic handling and loading of fibreboard and corrugated boxes. Our efforts towards continued improvement and market advancement while maintaining our High Standards of Quality, Reliability and Performance have benefited our end user customers with the development of new product lines, and the expansion of others, to meet application requirements not previously addressed by the Packaging Machinery industry.

EXCELLENCE, RELIABILITY, DEDICATION

ROCKFORD MIDLAND CORPORATION

AT ROCKFORD...

we believe, our first responsibility as a quality packaging machinery manufacturer is to provide the best piece of equipment possible at a fair and reasonable price. We pursue and uphold this responsibility on a daily basis by keeping sight of our three goals for success.

...Excellence in our product through people who take pride in their work and the products they produce

...Reliability of our equipment through continuous design improvement, manufactured parts that meet or exceed industry standards and sound structural integrity of all product lines

...and Dedication through our customer service and support systems, our Rockford Pride of Ownership programs and our commitment to continued advancement in design and development.
